NATRUX® HAND CREAM
Regenerating Anti-aging Nourishing Elasticizing

1. **Indications:** protective, regenerating, hydrating, nourishing and anti-aging treatment for your hands and cuticles. Relieves dryness for skin that looks more supple, radiant, smooth and even. Also suitable for sensitive skin. Soft, lightweight and rapidly absorbing texture. Non-greasy.

2. **NATRUX® HAND CREAM** contains *Fospidina*, a complex compounded by phospholipids extracted from soy and glucosamine. Their synergistic produces a regenerating action on the skin tissue since the activity of glucosamine, a precursor of hyaluronic acid, turns out to be effective thanks to the conveyance carried out by phospholipids that penetrate up to the dermis.

Active ingredients:

- **Phospholipids and Glucosamine:** phospholipids help to maintain the integrity of cellular membranes and are excellent vehicles for the transport of glucosamine, thanks to the speed with which they penetrate. Glucosamine is a precursor of glycosaminoglycans such as hyaluronic acid, which decrease in quantity as we age. An external source of glucosamine counteracts this imbalance and, when delivered by phospholipids, can reach the innermost layers of the skin for deep hydration.
- **Natural prebiotics:** a blend of inulin, a complex sugar extracted from the roots of *Cichorium Intybus* (chicory), and Gluco-oligosaccharide, derived from natural carbohydrates using biotechnology. These act together to keep the skin's ecosystem in balance, which prevents unsightly and uncomfortable breakouts.
- **Centella Asiatica:** rich in flavonoids, triterpene molecules that promote the synthesis of collagen and provide re-epithelising and restorative properties, ideal for protecting and relieving sensitive skin from cracks and redness and promoting physiological repair.
- **Almond oil:** rich in polyunsaturated fatty acids including omega-9 oleic acid, omega-6 linoleic acid and omega-3 linolenic acid, with excellent soothing, nourishing, eudermic and firming properties. Ideal for dry, fragile and sensitive skin.
- **Shea butter:** natural substance rich in unsaponifiable fraction, known for its soothing, regenerating and moisture maintenance properties for the skin barrier. The presence of terpenic alcohols (karitene) and phytosterols make it a precious natural ingredient for firm and supple skin.

3. **Product name:** NATRUX® HAND CREAM

4. **Ingredients:** AQUA, CETEARYL ALCOHOL, GLYCERIN, PRUNUS AMYGDALUS DULCIS OIL, ORYZA SATIVA BRAN OIL, BEHENYL ALCOHOL, BUTYROSPERMUM PARKII BUTTER, CAPRYLIC/CAPRIC TRIGLYCERIDE, INULIN, CETEARYL GLUCOSIDE, CERA ALBA, LECITHIN, GLUCOSAMINE SULFATE, CENTELLA ASIATICA LEAF EXTRACT, ALPHA-GLUCAN OLIGOSACCHARIDE, TOCOPHEROL, ASCORBYL PALMITATE, HYDROXYPROPYL GUAR, ETHYLHEXYLGLYCERIN, POTASSIUM CETYL PHOSPHATE, CITRIC ACID, PARFUM, PHENOXYETHANOL, SODIUM POLYACRYLATE, DISODIUM EDTA

5. **Cosmetic form:** cream

6. **Capacity:** 75ml tube

7. **How to use:** Apply as needed, massaging into the back of the hands from the nails to the wrists with circular movements until fully absorbed.

8. **Warnings:** NATRUX® is a cream has been dermatologically tested on sensitive skin. Use not recommended in case of allergy to any of the components.

9. **PaO (period after opening):** 12 months

10. **Storage:** the product must be stored under normal ambient conditions (in a dry place, at room temperature) and protected from light.

11. **Business name and address:** SKINIUS S.r.l. – Via Durini 14 - 20122 Milan Italy
