SHATUI® NOURISHING FACE CREAM Regenerating Firming Anti-aging

1. **Indications:** anti-aging, nourishing and firming cream to tackle micro-wrinkles and restore tone and elasticity to the skin, redefining the natural contours of the face. Its antioxidant and regenerating action helps to increase skin elasticity and maintain cellular physiology. Suitable for dry and very dry skin. Suitable for sensitive skin. Rich and creamy texture.
2. **SHATUI®** contains Fospidina, a complex of phospholipids extracted from soy and glucosamine. Their synergistic produces a regenerating action on cutaneous tissue since glucosamine, a precursor of hyaluronic acid, is carried by the phospholipids through to the dermis where it can act effectively.

Active ingredients:

- **Phospholipids and Glucosamine:** provide superficial and deep hydration.
- **Hyaluronic acid:** a natural polysaccharide with hydrating properties that helps to preserve elasticity and firmness for softer and younger looking skin.
- **Vitamin E:** powerful antioxidant that helps to protect the cellular membranes from free radicals.
- **Passionflower oil:** rich in oleic and linolenic acid, helps to reduce the loss of transepidermal water, softening and nourishing the skin.
- **Macadamia oil:** rich in oleic and palmitoleic acid, helps to keep skin soft and smooth.
- **Shea Butter:** its known emollient properties make it particularly suitable for firming the skin and for the treatment and prevention of wrinkles.
